

DISINFECTION AND HYGIENE GUIDELINES CONFERENCES

1. Hygiene measures in the hotel
2. Hygiene measures in F&B
3. Hygiene measures in the conference room

Hygiene at the highest level

In these times, we do everything to protect our guests, visitors and employees in the best possible way. Cleanliness and hygiene have always been our greatest duties. We want you to feel good all around and be able to move as carefree as ever in all areas of our house. Therefore, the hygiene standards have been optimized again at a high level. We work with the latest technology. All employees and partners are set up and prepared for the maximum possible level of hygiene for the hotel and our Gasthaus DER BIERMANN. Trust us - we deserve it.

1) Hygiene measures in the hotel

Public areas

are cleaned and disinfected by our employees at short intervals. There are several options for hand disinfection. When you arrive at the reception, we welcome you protected, but no less warmly and you can be sure that our eyes shine even more than usual.

Rooms

are cleaned and disinfected under the greatest possible hygiene requirements. Electrostatic technology is also used to reach all locations. Hand disinfection is available in the room and you will find a room that has been sealed after cleaning and will not be entered until you arrive.

Breakfast

is legendary with us and will remain so. The great thing is - it comes to you now. You choose what we can put together for you and we bring it to the table or to the room. This also applies to lunch or dinner in our guest house. To stay - to go or to bring. Everything is possible.

Our location

is always perfect, especially now. Close to and quickly in the center, but at a good distance so as not to be in the hustle and bustle. The Munich area has a lot to offer and you have the perfect starting point for excursions in all directions. We would be happy to help you plan your time and reveal our favorite leisure destinations.

2) Hygiene measures in F&B

Coffee breaks and coffee machine

are prepared by our employees for every conference participant. The snacks for the coffee breaks are arranged on a separate plate for each participant. An employee will distribute these during the break times. The coffee machine is still available to guests all day. At the beginning of the conference and in the coffee breaks, an employee will prepare the desired coffee and tea specialties for the participants.

Lunch

will continue to exist in our restaurant. Here, too, we will comply with the minimum clearance requirements. All of our employees, whether in service or in the kitchen, wear mouth and nose protection and have been trained accordingly. Large tables or boards are prepared for the groups.

Conference drinks

are placed separately on each participant's table. The drinks are refreshed during lunch break as usual.

3) Hygiene measures in the conference room

Minimum distance

between the participants will always be given. Using suitable furniture, such as large tables, it is possible to position the participants in such a way that the legally prescribed minimum distance is guaranteed at all times.

Hand disinfectant dispenser

will be ready at the conference room entrances. Here the participants can disinfect their hands at any time.

Mask requirement

does not exist in the training room, since the legal minimum distances are observed. If necessary, participants can also get a mask at our reception.

Surfaces

are thoroughly disinfected before and after each training day. We also work here with electronic devices for disinfection.

Windows

are opened regularly during the conference day. Each of our training rooms has several windows that are regularly opened by our ventilation concept.

4. Meeting room capacity

SEATINGS

RAUM	STOCKWERK	FLÄCHE	BLOCK	KINO	PARLAMENT	U-FORM	BANKETT
							
Maximilian	first floor	70 m ²	12	15	15	12	12
Luitpold *	2nd floor	70 m ²	12	15	15	12	12
Lola Montez	2nd floor	47 m ²	8	12	7	8	7
Montgelas	2nd floor	23 m ²	4	6	5	4	-
Library **	2nd floor	23 m ²					

* Combination of the two rooms Lola Montez and Montgelas

** Inspiring room for individual coachings and mediations for up to four people

We want to have a good time with you

We do not have to stand together to stand together and wish that everyone makes their contribution to the health of all of us.

Therefore we ask you to consider our hygiene principles:

a warm smile replaces a handshake a thousand percent

- As much as we like to fuss in Bavaria - we currently have to do without it
- Keeping the given distance is a big sign of mindfulness for everyone
- for many things, but especially for the hands:
- always stay nice and clean, preferably with regular, 30-second washing
- Practice with us for the next masked ball and cover your mouth and nose with protection. We will be happy to provide it to you if required
- please have your elbow or a handkerchief ready.

Together we can do that, and if we are strong and persevere now, we can get physically close again very soon. We are very close to each other at heart.

We are confident that with the good Bavarian air, the pleasant atmosphere of our house, the considerate people and the measures taken, we have the best conditions to stay healthy. Regardless of whether a happy reunion or a new getting to know you - we are very much looking forward to it.
